

Android Developer

Sien

### **Job brief**

We are looking for an Android Developer who possesses a passion for pushing mobile technologies to the limits and will work with our team of talented engineers to design and build the next generation of our mobile applications.

### **Responsibilities**

- Design and build advanced applications for the Android platform
- Collaborate with cross-functional teams to define, design, and ship new features.
- Work with outside data sources and API's
- Unit-test code for robustness, including edge cases, usability, and general reliability.
- Work on bug fixing and improving application performance.
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.
- Up-to-date with Android UI design fundamentals

### **Requirements**

- Previous experience as an Android developer (2+ years)
- OO programming experience in Java / C# / C++ is a plus.
- Passion for mobile development
- Experience with Graphic Design (Material Design is a plus)
- Have published at least one original Android app
- Experience with Android SDK and Android Studio best practices
- Experience working with remote data via REST and JSON
- Experience with third-party libraries and APIs
- Fluent in English
