FRONT-END DEVELOPER

For some exciting projects, we look for a new colleague to join our team.
We need someone that will take care not only the development, but also who will have to pro-actively solve the impediments that arrive (yes, these situations are part of the deal).

Ideal you should have:
At least 2 years experience with HTML and CSS, including HTML5 and CSS3
Knowledge of jQuery
Done some work with HTML/CSS frameworks
Writes clean and logical markup
Proper knowledge of media queries and responsive design techniques
And good command of English language (international team)

We know perfect does not exist, but maybe you:
Played with cross-browser compatibility issues
Worked with extension libraries like H5BP, Modernizer

Considered a plus:
Other JS libraries
LESS or SASS

You must:
Have sense of humor
Know to play Ping – Pong
(Like drinking a beer on Thursday)

What we can offer:
An adventurous job (believe us, it is an adventure)
The vision of a great product that can rule the world
Possibility to grow in an awesome company

And the rest:
Best private medical insurance (trust us we have it – Sanaplan from Allianz – Tiriac)
Good office location
Competitive salary

If you got to read all the lines above, there is a chance that we've caught your attention.
Come to meet us and drink a coffee. Send your availability here: **hr-ro@xlfamily.com**
