

Junior Software Engineer (iOS/Android) for FaceRig

Holotech Studios SRL is a Romanian Indie start-up, created by a few game development veterans. Its maiden product is FaceRig (facerig.com) .

FaceRig is a program enabling anyone with a webcam to instantly embody fantastic characters. The output can be streamed to Skype, Twitch or any service that uses a webcam. It can also be instantly recorded as a movie. Learn more about us on facerig.com .

The program has launched on the Steam digital distribution service on 7th of July 2015. Prior to this it was available as a Beta via the SteamEarly Access program starting with August 29 2014. <http://store.steampowered.com/app/274920/>

We are currently looking for mobile Software Engineers who want to join us in our attempt to bring FaceRig to mobiles.

Duties and Responsibilities (after the initial training period):

- Collaborate with Lead Software Engineer to design, implement, and maintain coding solutions.
- Test, debug and extend existing code.
- Coordinate with other departments to ensure successful deployment of new features.
- Evaluate code for performance bottlenecks, and work pro-actively with Lead Software Engineer towards solutions.
- Attend meetings for planning and updates.

Appreciated skills and experience:

- A degree in Computers/Math/Physics.
 - Experience with Unity 3D and C#-Xcode and Eclipse development environment
 - Experience with a scripting language (Python, Pearl, Lua, etc.)
 - Mobile platform development experience (Android/iOS)
 - At least 1 year of actual work experience in Objective C, Java or C/C++.
- Experience acquired from complex academic projects is valid.

-Experience with any of the following Direct3D, OpenGL, skeletal animation, signal analysis, creating user interfaces, mobile development.

-Experience with memory management, multi-threading, cross-platform development or networking.

-Experience making low-level optimizations.

Any demo projects that can prove your experience as a mobile Software Engineer would be highly appreciated.

What we offer:

-Great colleagues, friends and excellent professionals.

-Opportunity to work on a product with excellent worldwide visibility.

-Open, informal and fun atmosphere (occasional pizza & board games parties).

-Challenges and support to grow professionally in a dynamic environment.

-Motivating salary scheme, bonuses, health insurance.

-Access to leading-edge technologies.
