<b>Location:</b>	<b>Bucharest</b>
<b>Level:</b>	<b>Senior</b>

### Senior J2EE Developer / Team Leader

#### Description:

**An important partner of Vauban from IT Services / Energy Industry is looking for Senior J2EE Developers and for TL Java Architects for a very interesting project.**

Our partner is a global software company, their products and services enable more resilient, efficient and reliable power systems.

Our partner offer services to optimize the electrical infrastructure and employee career development is one of their major company values.

#### Description of the application / project:

Java applications for Energy Market Management System are executed within an international environment involving software development, support and business analysis in multi-sites and multi-countries. Hence technical, functional and interpersonal skills (communication both in oral and written form, self-organization, reporting, autonomy, decision making, English) are of utmost importance.

#### Requirements:

- A solid OOP background with upwards of 4 years Java development experience
- A degree in computing or a related discipline
- Experience with Java Swing , JMS, SQL, Spring and Hibernate
- Linux/Windows environments

- Developing at network level
- Sound knowledge of data structures and mathematical algorithms
- Ajax, GWT, Jboss, SOAP, CXF, SQL, Oracle, SVN, XML, Jira, Agile, SCRUM
- Between the above, probably Swing is less required, but JMS, SQL, Spring , Hibernate and network development is mandatory

**Personal skills:**

- Knowledge of English spoken and written at a level sufficient to maintain relationships with colleagues and corporate organizations with which it is connected
- Pro-active person, with the necessary drive to create and maintain the Applications capability
- Relevant degree or above in telecom, IT or electronic engineering
- Flexible in changing work patterns and demands
- Good communication skills, both written and verbal
- Ability to work within a global, remote workforce
- Ability to work independently and in a team environment
- Ability to work under pressure

**Education:** University

**Languages:** English advanced
